PROFESSIONAL SUMMARY

Front-End and Full-Stack Developer with 5+ years of experience building responsive, high-performance web applications in ReactJS, Fusion.js, and Node.js. Specialised in GenAI product delivery: integrating OpenAI and other LLM APIs into production interfaces, and building AI agents and reusable AI skills now adopted across 8+ international delivery projects. Claude Certified Architect (Anthropic) who uses AI-assisted development workflows (Cursor, Claude Code, GitHub Copilot) to compress delivery timelines without sacrificing code quality. Currently the sole front-end and full-stack developer on an enterprise engagement, working directly with client stakeholders from requirement to release.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3, SQL basics
Frameworks	ReactJS, Fusion.js, Next.js, Angular, Redux, React Query (TanStack Query), React Hooks, React Router, Progressive Web Apps (PWA)
AI & GenAI	OpenAI API, LLM Integration, AI Agent Development, Reusable AI Skills, Prompt Engineering, GenAI Workflow Design
AI Tooling	Cursor, Claude Code, GitHub Copilot, AI-Assisted Development and Code Review
Backend & Data	Node.js, Express.js, MongoDB, Supabase, REST API Integration, Authentication, Client-Side Encryption
UI & Styling	Tailwind CSS, Material UI, Bootstrap, Styled Components, Shadcn UI, Responsive Web Design, Cross-Browser Compatibility
Tools & Practices	Git, GitHub, VS Code, Code Splitting, Lazy Loading, Performance Optimization, Code Review, Agile Delivery

PROFESSIONAL EXPERIENCE

Accenture Solutions Pvt. Ltd. Indore, MP

Packaged App Development Senior Analyst *Nov 2025 - Present*

Full-Stack Developer — Client: Uber Jun 2026 - Present

- Sole front-end and full-stack developer on the engagement, independently delivering production web applications for the Uber Eats and Uber Driver platforms while gathering requirements directly from client stakeholders and owning releases end to end.
- Build universal React applications on Fusion.js, Uber's React and Node.js web framework, covering UI, server-side rendering, service-layer logic, and API integration.
- Designed and built an in-house ad-blocking tool from scratch to replace an outsourced third-party dependency, eliminating external usage tracking and the associated data-privacy exposure, and removing a recurring vendor dependency for the account.
- Accelerate delivery using AI-assisted development workflows (Cursor, Claude Code, GitHub Copilot) for scaffolding, refactoring, test generation, and code review.

Front-End Developer — GenWizard (Accenture GenAI Platform) Nov 2025 - Jun 2026

- Sole front-end developer on GenWizard, Accenture's GenAI delivery platform, owning design, development, and delivery of ReactJS features with direct client interaction.
- Integrated OpenAI APIs and multiple LLM providers into React interfaces to deliver AI-driven, real-time content generation, including streaming responses and error/fallback handling.
- Developed AI agents and a library of reusable AI skills now in active use across 8+ international delivery projects, standardising how teams build GenAI features.
- Built scalable, reusable React components with modern hooks and lazy loading, and partnered cross-functionally with backend and GenAI engineering teams to align UI logic with API contracts.

Tata Consultancy Services Ltd. Indore, MP

System Engineer *Dec 2021 - Nov 2025*

- Integrated REST APIs and managed application state with Redux and React Query, increasing data processing efficiency by 20% and ensuring reliable data flow across views.
- Improved application performance by 30% through lazy loading, code splitting, and bundle-size reduction.
- Developed responsive interfaces and reusable components with React, Bootstrap, and Material UI, achieving 90% UI responsiveness across device types and raising user satisfaction scores by 15%.
- Debugged and refactored existing codebases to maintain a clean, scalable front-end architecture, cutting bug-related incidents by 25%.
- Managed version control and branching workflows in Git, reducing merge conflicts by 40% across the team.

V2 Venture Tech Pvt. Ltd. Udaipur, RJ

Associate Software Developer *Jul 2021 - Oct 2021*

- Developed and customized Salesforce Lightning components using Lightning App Builder, improving interface performance and usability by 30% and cutting component development time by 25%.

PROJECTS

Tradelogy - Stock Trading Dashboard · tradelogy.in MERN Stack

- Built and deployed a full-stack MERN application delivering real-time trading insights, portfolio tracking, and performance analytics.
- Developed a responsive ReactJS dashboard and integrated REST APIs built with Node.js, Express, and MongoDB, using TanStack Query for data fetching and caching.

Family Cloud - End-to-End Encrypted Photo and File Cloud · cloud.tradelogy.in React, Node.js, PWA

- Built and self-hosted a private cloud storage platform for family photos, media, and documents, implementing end-to-end encryption so file contents are encrypted client-side and remain unreadable on the server.
- Developed a mobile-first, installable progressive web app with a file-manager interface covering folder navigation, uploads, and a media library with in-browser playback and file metadata.
- Owned the full stack end to end: React front end, Node.js API layer, encrypted storage, authentication, HTTPS deployment, and custom subdomain configuration, removing dependence on third-party consumer cloud services.

Personal Portfolio · portfolio-sahilmandre.vercel.app React, Tailwind CSS

- Designed and built a personal portfolio with ReactJS, Tailwind CSS, and Aceternity UI to showcase projects and technical skills.

EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya Bhopal, MP

Bachelor of Technology, Computer Science Engineering *2017 - 2021*

CERTIFICATIONS

- Claude Certified Architect - Foundations (CCAR-F), Anthropic
- Career Essentials in Generative AI - Microsoft and LinkedIn
- Career Essentials in GitHub Professional Certificate - GitHub
- The Ultimate React Course 2024: React, Next.js, Redux and More (70 hours) - Udemy

ACHIEVEMENTS AND LEADERSHIP

- On the Spot (Team) Award, Best Team Award, and Learning Achievement Award for project delivery, collaboration, and sustained upskilling.
- Co-Founder, Mission Azad (NGO): co-founded an NGO delivering free martial arts and self-defense training to over 120,000 women and girls across multiple states in India.
- Lead, College Fest Organizing Committee: coordinated events, schedules, logistics, and on-day execution.
